#### § 4 Contest

The TANGO CONTEST MÜNSTER 2018 has two categories: "Tango de Pista" and "Milonga". Both categories will be executed in three steps:

1. Qualification round
2. Semi-final round
3. Final round

1. Qualification: every enrolled couple participates in the qualification. They dance one time.
2. Semi-final round: in the semi-final round will dance the couples chosen in the qualification. The number of couples, which arrives in semi-final round depends on the number of participating couples.
3. Final: in the final round will dance the couples chosen in the semi-final round. The number of couples, which arrives in final round depends on the number of participating couples.

In the categories "Tango de Pista" and "Milonga" several couples dance in a small group at the same time (ronda). Every group dances three pieces of recordings. The pieces are chosen by the organization of the contest and the jury.

The organization of the contest can exclude couples from the competition, if

- a) they don't stick to the rules of the contest
- b) they behave ethically incorrect or harm the image of the contest or its organization or if they cause public aversions.

#### § 5 Jury

The jury is made of four members. They accept and implement the contest rules. The jury rate the dace couples by points.

The jury for the TANGO CONTEST MÜNSTER 2018 consists of:

Aoniken Quiroga  
Noelia Barsi  
Murat Erdemsel  
Sol Orozco

All decisions made by the jury are unassailable. The jury comes to their decision as one instance. The participants accept this condition by their attendance. If a decision of the jury is questioned or criticized, a written complaint can be made against the organization of the contest (not against the jury directly).

Every member of the jury, which withdraws on the grounds of bias, has to inform the organization of the contest and must back away from the rating of his particular participant. If a member of the jury does not make an evaluation of a participant, the ratings of the other members of the jury will be summed up and divided by their number.

The assessment by the jury results in the sum of points at a scale from 1 to 10 given by every jury member at the base of appraisal criteria described in the following.

The ranking list of the final round shows the winner of the contest. The first three couples in the categories "Tango de Pista" and "Milonga" will claim the first, second and third place. Furthermore for the best couple in ranking who will represent Germany in the world championship, will be given a price.

In special cases (technical failures, accidents at the stage, etc.) the jury is allowed to request a repetition of the participants to issue a final judgement.

In case of a standoff with two couples who reached the same score in the final, those couples have to dance an additional "ronda", so the jury can determine the winner.

Furthermore the organization can declare other prizes and can consult other valuation standards (for example an audience award).

## § 6 Rating criteria

### Tango de Pista:

The dancers find in couples and do not detach from each other until the music is over, because this is the only accepted posture. The body of the dancer has to hold the embrace of the other for the entire period of the dance – in the way that in certain figures the embrace could be flexible but not for the entire time of the dance. All movements have to be done in the space that result through the embrace between both parts of the couple.

The jury takes care of the musicality, the connection of the couple and the elegance of the movement as essential points for the rating.

Within these parameters the dancers could perform all figures that are usually danced in the Tango as social dance, containing also barridas, flat sacadas, enrosques etc. Completely excluded are jumps and figures, in which you lose the contact to the ground with both feet and any other choreographic figure from the Tango Escenario.

The couples have to be continuously moving counterclockwise like in a ballroom and not stand on one spot, because in this case the dance flow in the “ronda” would be blocked.

The clothing is not an evaluation parameter.

### Milonga:

The quick, rhythmic and cheerful music of the Milonga should be represented by the dancers. The dancers themselves and also the audience should gain pleasure from the dance.

This cheerful atmosphere should be found in the dancing poise, the steps and the dynamics. Fine choreographic elements (e.g. small jumps, the releasing of embrace etc.) can intensify this.

Musicality and the interaction between the dancers is an important criterion for the judging.

The dance direction is counter-clockwise. It is possible to dance on the spot as long as other couples are not restricted.

## § 7 Video- / film recordings

The event organizer beholds every right for photography, video recording and film exposure via every known or unknown device including – without any limitation – the recording of video / television, acoustic recordings, photographs, digitalization, directly or via authorized persons, to promote the event. The recordings are peculiar property of the event organizer. The registration in the contest contains the explicit and irrevocable permit of the participants to use the recorded material without claims of every kind. The recorded material will be used in favour of none person or organization. This paragraph contains also all sorts of published or for promotion purposes used photography without any limitation.
